CHRISTIAN TORRES

Technical Project Manager | Cloud Networking | Security

☎ +1-(234)-555-1234 @ Email 🔗 linkedin.com 📍 Denver, Colorado ☆ Extra Field

SUMMARY

Technical Project Manager with 8 years in cloud networking. Expertise in project coordination and risk management, leading to improved project outcomes and client satisfaction. Proven track record in managing complex SD-WAN deployments achieving project delivery targets.

PROJECTS

SD-WAN Optimization Tool

Developed a tool that improved network performance metrics by providing real-time analytics. github.com/christian_torres/sdwan_optimization

Secure Cloud Networking Prototype

Led the creation of a prototype solution enhancing cloud security integration. github.com/christian_torres/cloud_security_prototype

KEY ACHIEVEMENTS

🏆 **Project Delivery Excellence Award**
Awarded for successfully delivering over 60 projects with a client satisfaction rating of 95%.

EXPERIENCE

Technical Project Manager

CenturyLink   📅 05/2019 - 09/2023   📍 Denver, Colorado

- Led a team to deliver SD-WAN projects, reducing delivery time by 20%, enhancing client satisfaction.
- Crafted detailed project plans for complex cloud networking solutions, influencing 10% cost reduction.
- Efficiently managed project budgets up to $5M, successfully forecasting and tracking expenditures.
- Facilitated weekly client meetings to ensure project alignment and address emerging challenges.
- Implemented risk management strategies that decreased project issues by 30% year over year.
- Coordinated with cross-functional teams to ensure project objectives were met on time and within scope.

Network Solutions Architect

Verizon   📅 02/2016 - 04/2019   📍 Boulder, Colorado

- Developed architecture for advanced security systems, improving network assurance by 40% annually.
- Regularly collaborated with sales teams, driving a 15% growth in network service adoption globally.
- Optimized telecommunication solutions, leading to a 25% increase in service efficiency.
- Provided technical guidance on global projects, leading to successful implementations in 50+ cities.
- Contributed to product development teams, resulting in the launch of three new network solutions.

Telecommunications Engineer

AT&T   📅 01/2013 - 01/2016   📍 Aurora, Colorado

- Engineered telecommunications systems supporting projects that serviced over 100,000 end users.
- Collaborated with software engineering to design scalable solutions, leading to a 30% performance boost.
- Analyzed telecommunication data, providing actionable insights that led to improved infrastructure.
- Participated in cross-functional technical workshops, enriching team knowledge and product offerings.

SKILLS

Project Management, SD-WAN, Advanced Security, MS Project, Risk Management, Budget Forecasting

EDUCATION

Master of Science in Telecommunications

University of Colorado Boulder   📅 01/2014 - 01/2016   📍 Boulder, Colorado

Bachelor of Science in Computer Engineering

Colorado State University   📅 01/2009 - 01/2013   📍 Fort Collins, Colorado
